EDUCATION

Bachelor of Technology - Industrial Internet of Things

2022 - 2026

Vivekananda Institute of Professional Studies - Technical Campus (VIPS-TC), GGSIPU, Delhi

CGPA: 8.0

EXPERIENCE

UI/UX Design Intern | LabBuddy

Mar 2026 - Jun 2026

Mayapuri, New Delhi, India

Hybrid

- Conducted UX audit and competitor analysis to identify usability issues in the LabBuddy platform.
- Redesigned onboarding, package details, and cart flow screens in Figma to improve usability and visual hierarchy.

UX Research & Design Intern | Maruti Suzuki India Limited

July 2025 - Aug 2025

Gurugram, Haryana, India

On-site

- Conducted heuristic evaluation (Nielsen Norman framework) and competitor analysis of the Driving School website to identify UX gaps.
- Designed and delivered an optimized information architecture, user flows, wireframes, prototypes, and visual redesign for mobile and desktop platforms aligned with business goals.

UI/UX Design Intern | SkillCraft Technology

Jan 2025

Mumbai, India

Remote

- Designed intuitive UI/UX with low/high-fidelity prototypes, optimized user flows including e-commerce checkout, and implemented dark mode for enhanced usability and readability.

Summer Trainee – AR-VR Technology | IIITD

July 2024

At Indraprastha Institute of Information Technology Delhi (IIITD)

On-site

- Secured **2nd** position - Award of Excellence.
- Learned & applied concepts of AR-VR, Mixed Reality, Image Rendering, Procedural Modeling, UI-UX design; built multiple AR-VR projects.

PROJECTS

AgriSense.AI – AI & IoT Crop Disease Detection System

[Project Link](#)

- Built a full-stack crop health system using ESP32, React.js, TypeScript, Firebase, and REST APIs, integrating **multimodal data fusion** combining plant images, sensor data, and weather inputs for AI-driven insights.
- Implemented a **real-time IoT pipeline** with Embedded C++ on ESP32, streaming soil and light sensor data to **Firebase** and analyzing it using Gemini Flash 2.5 (Vision + Text).
- Developed a mobile-first web app with Tailwind CSS supporting image capture, live sensor monitoring, bilingual (EN/HI), AI chatbot, and automated PDF reports.

Maruti Suzuki Driving School Website Redesign | *Project done during UX Research & Design Internship at MSIL*

[Project Link](#)

- Conducted **heuristic evaluation (Nielsen Norman)** and competitor analysis to identify usability gaps and benchmark best practices.
- Designed information architecture, user flows, and **high-fidelity prototypes** in Figma, delivering improved navigation, mobile responsiveness, and a modern, user-centered interface.

UI/UX Internship Projects | *Projects done during UI/UX Design Internship at SkillCraft Technology*

[Project Link](#)

- Improved usability and accessibility through **high-fidelity mockups** for India Post and a dark mode news app.
- Optimized e-commerce checkout flow and designed a seamless onboarding journey for a fitness app prototype.

AI College Info Chatbot– Hackathon Project | *AI Chatbot Solution for College Admissions (DTE Rajasthan)*

- Developed an AI-powered student chatbot using **open-source LLMs**, LangChain, and RAG with vector databases for semantic search; shortlisted for the final round of "Untitled 2.0" hackathon for SIH.

AR-VR Projects | *Projects done during Summer training at IIIT Delhi*

- Built and launched multiple 3D, AR, and VR games, including a **VR FPS** for iPhone and an AR Darts game- using **Unity**, C#, Xcode, and Visual Studio.

PUBLICATIONS

AI-Powered Chatbot for College Information Retrieval

[Link](#)

- Research paper co authored and presented at ICICC 2025 Conference; **published** in Elsevier SSRN proceedings.
- The paper proposes a large language model-driven chatbot system for streamlining college admissions and information retrieval.

TECHNICAL SKILLS AND INTERESTS

Tools & Platforms: Figma, FigJam, Framer, Canva, Jira, Notion, Miro, Claude, Antigravity.

Design Methodologies: Nielsen Norman Heuristics, Design Thinking, Double Diamond.

UX / UI: Wireframing, Prototyping, High-Fidelity Design, Usability Testing, Interaction Design, Human-Centered Design, Responsive Web Design.

Areas of Interest: Product Design, Interaction Design, Design Systems, UX Research, Accessibility & Inclusive Design, Mobile App Design.

Soft Skills: User-Centric Thinking, Design Thinking, Creative Problem Solving, Product Sense, Leadership & Collaboration, Self-Driven, Innovation, Adaptability.

POSITIONS OF RESPONSIBILITY

Core Member – Social Media Department, Career Development Centre (CDC)

Jan 2025 - Present

- Handled content creation and branding for CDC's online presence, improving reach and engagement.
- Collaborated with teams to promote career development initiatives, workshops, and placement opportunities.
